SERVIAN POSITIONS BOMBARDED

German and Austro-Hungarian Troops Concentrated Along Serbo-Bulgarian Frontier.

Berlin, Sept. 21, (via London.)-Official reports from Austrian and German Headquarters and dispatches from the Balkan capitals show that the long-expected Teutonic campaign against Serbia has now begun. Austrian and German artillery today is bombarding Serbian positions south of the river frontier at various points along the 100-mile front between the mouths of the Drina and Morava

This action undoubtedly is intended as a cover to the throwing of a large force across the river and the seizure of a bridgehead whence the new "steam roller" can be started. Just where a crossing will be at tempted is unknown.

"It is reported from the Balkans," says the Overseas News Agency "that the Serbian Government has declared the Serbo-Bulgarian frontler district a war zone. It is also reported that Bulgarian troops are con centrated near the Serbian frontier and that German and Austro-Hungarian troops have been concentrated since a certain date along the Serbian border line."

Athens, Sept. 21. (via Paris.)-Bulgaria is reported to have mobilized 100,000 men. Several cavalry regiments are declared to have left Sofia Foss, 1,984; McCall, 16,134. For the for unknown destinations.

Officials and diplomats here, who alone have been apprised of these reports, appear greatly disturbed over the situation.

FORAKER IS OPERATED UPON Ex-Senator from Ohio Improves and Doctors are Optimistic

Cincinnati, Sept. 21-Former United States Senator Joseph B. Foraked of Ohio was operated upon here toed to be in a satisfactory condition. The operation was performed by Dr. G. F. McKim at the Christ Hospital in this city, following a delay of sev-

eral days owing to the weak state of the patient. Senator Foraker's favorable condition is expected to stand him in good stead during the period

Broken Flange Sent Train Off Rails

A broken flange on the locomotice of the Green Mountain flyer, due in Troy at 4:25 Monday caused the locomotive and mail car of the train to leave the rail at a dangerous curve on the Boston and Maine tracks between Melrose and Oil Mill Hill on the outskirts of Troy, and they just missed toppling over the embankment.

There is a steep down grade at this point and it is estimated that the train was traveling faster than thirty-five miles an hour when the locomotive left the track. James Mullaly, the driver, applied the emergency brake and managed to bring the train to stop just on the brink of the embankment, after it had torn up a hundred yards of roadbed and ties. The train was made up of a mail car baggage car, a dining car and sever al coaches. Conductor John Reilly was in charge of the train.

The Boston and Maine wrecking crew from Mechanicville was rushed to the scene and derricked the derail ed cars back on the tracks. While the train was off the track passenger and freight trains were sent over the eastbound track between Melrose and Off Mill hill.

ANTHONY COMSTOCK DIES

Famous Reformer Contracted Cold While on Vacation.

York, Sept. 21.-Anthony Comstock, secretary of the New York Society for the Suppression of Vice, died at his home in Summit, N. J. tonight after a brief illness. Mr. Comstock contracted a cold while on his vacation 10 days ago which later developed into pneumonia. smaller cities and towns. The vote

for ex-Governor Eugene N. Foss was comparatively small. Governor David I. Walsh, for re nomination, had an easy race against Frederick S. Deitrick, the only other

contender for the Democratic nomination. The foregoing was based on re turns from 443 election precincts out of 1.140 in the State; embracing 138 out of 353 cities and towns, including Boston. These gave for the Republi can nomination: Cushing, 14,748;

Democratic nomination: Walsh, 40, 650; Deitrick, 1,462. The only other contest i near head of the ticket was for Republican Lieutenant Governor, For this Calvin Coolidge had received 17,431 against

13,749 for Guy A. Ham

COST LOVE \$73.43.

NEUTRALITY EXPENSIVE Switzerland's Mobilization Bill Was

\$28,000,000 Up to Sept. 1

Bern, via Paris, Sept. 21-President Motta of Switzerland announced today in a speech before the National Council of the Swiss Confederation that Switzerland's expenses for mob ilization to September 1 amounted to \$28,000,000. If the war should last ten months longer, the President added, the mobilization cost would reach \$80,000,000.

INTO BULGARIA

Cushing Won in Boston But Lost Petrograd and Riga Believed To Be Safe

VOTE ANXIETY FOR WILNA'S GUARD

Possibility That Garrison Broke Through Encircling Movement of Teutons.

Petrograd, Sept. 22.—Petrograd and Riga are now considered safe be o the announcement of the war office and because of the withdrawal of large force of AustroGerman troops for the big drive through Bulgaria.

London, Sept. 21.-The whereabouts of the Russian Wilna army, estimated variously from 300,000 to half a million men, is shrouded in mystery. Field Marshal von Hindenburg today closed the ring whose formation began with the capture of the heart of western Russia's railway system, Wilna. Berlin, in this afternoon's report asserts that the right wing of Gen, von Eichhorn's army has reached the region east of Lida, southeast of Novogrudok. This means that the last line of retreat left to the Russians, the Wilno-Baronowitsch rail,

has been cut and is in German hands. Von Hindenburg's trap is set. There is every justification, however, for the question; Are the Russians caught in it or did they escape in the nick of time? The Russian re er 18. Did these three days which have since elapsed and in the course of which the Von Eichhorn wing tried desperately to gain Lida, suc ceeding only slowly, suffice for the Czar to repeat the Grand Nicholas's oft repeated master stroke of extricating the main forces at the eleventh hour, leaving only the rear guard

behind to hamper the pursuit? Although it is not yet clear wheththe Germans are still in possesion of the Molodechno junction, reached by their cavalry late last week, and although Petrograd asserts this point is still in Russian hands, the successful retreat over this line now is all but impossible because of the presence of German forces all along the Molodechno-Lida railroad, value to farmers of well-organized cowhere they reached Worjany several operation. In this connection, one

days ago. Meanwhile the Bavarian troops un der Prince Leopold are pressing forward and are already reported today mark is almost entirely independent, to have crossed Moltshad River, mov

ing in a northwesterly direction. The Germans are now believed to be aiming at a general junction of the Wilna-Lida-Molodechno forces with the Slonim army at Minsk, the junction of the Bres-Litovak-Moscow

and the Gowel-Wilna rallways. Dvinsk, around which the encirc ling movement also has been com pleted, is still under bombardment and its fall is believed to be a mat ter of days, if not of hours. The army defending it, though not be lieved to be nearly as large as the Vilna forces, will be in equally as great dilemma as the latter. The capture of Dvinsk opens for the Germans the road to Petrograd.

MAY PROSECUTE NORTHCLIFFE Britain Likely to Act Because Censor ship was Evaded

London, Sept. 21-Government prosecution of the Northcliffe news papers for evading the censorship was hinted in the House of Com mons today by Sir John A. Simon when he announced in reply to a question, that the story recently pub lished with regard to the destruction of the great Russian munitions factory at Okhta had not been sub mitted to the censor. This fact, he added, had been brought to the no tice of the public prosecutor.

The story in question said that the explosion, which resulted in the com- nually. In other words, these societplete destruction of the munitions factory, was the work of a German spy and that, it crippled the Russian munitions output to such an extent ing? that the allies were compelled to furnish much of their own supplies to Russia. The story added that thousands of workmen had been killed in the disaster.

WEATHER FORECAST

Thursday.

DEVELOPEMENT AND

Department Edited by Secretary Willard Bartlett of the County Association.

Department edited by Secretary Willard W. Bartlett of the County As-

The County Association wishes to congratulate one of its sister organ- CAR FALLS INTO BIG HOLE izations, the Y. M. C. A. of Bennington, on securing Mr. H. A. Wilkinson welcome to Mr. Wilkinson and his family into Bennington county. The broad experience which Mr. Wilkinson has had in Y. M. C. A. work, in social work and in business should fit him admirably for the position and both Mr. Wilkinson and his family will be a great asset to Benning

ton county. We trust that Mr. and Mrs. Wilkinson will be as charmed with Benning ton county as have been the secretary of the County Improvement As sociation and Mrs. Bartlett and we trust that there will be a great many ways in which each of these organiza tions will be able to assist the other in their respective field of effort for better and ever increasingly better things for Bennington county

Not by any means the least attractive place at the Manchester fair was the rest tent conducted by the County Association. roomy tent, furnished with chairs, tables and an ice-water tank, drew hundreds of people each day to rest to get a drink of water, to eat their lunches and to meet their friends. One end of the tent was partitioned off and furnished with cots to form a rest room.

Officials of the association were present at all times to keep things running smoothly. A half dozen frames of photographs were display ed, illustrating road work, results of farm demonstration work, village beautification, activities of the Ben nington Civic League and a few of the results of the School Improve ment contests. 'Also, an effort was made to see that each person who visited the tent received a copy of the last annual report of the association. This is the third season that rest tent has been conducted and to judge

from the numerous expressions of appreciation from the patrons the association may feel repaid for the effort. More elaborate plans are being made for another year.

Prosperous Farming Denmark is the stock illustration of

those who would point out the great

cannot do better than read H. Rider Haggart's "Rural Denmark and It's Lesson." The prosperity of Dendirectly or indirectly upon its agriculture. "Agriculture is the breath of its nostrils." Nor is the country in its natural resources to be counted one of the rich agricultural countries of the world. Yet its farmers prosper in unusual measure and the country prospers. The undoubted cause of this is the working of the co-operative movement. Danish farmers, most of them at least, have long since seen the folly of attempting to do singly, what can better be done together. In fact, they had to work together in order to live. In consequence they have established co-operative societies to help them at every stage of their farming operations; to buy for them. to make butter, cheese and bacon for them, to sell for them, to inspect their stock and help in many other things. One simple illustration may be cited. There were in Denmark in 1909, 519 co-operative 'Central Societies' to inspect dairy herds. These had 12,000 members owning 206,800 cows. Their purpose is described as "To keep account by means of careful registration of the milk yield o each cow, of the amount of butter-fai in the milk, and the relation between the yield and the fodder consumed. with the object of eliminating useless or inferior cows." The average yield of the cows so inspected exceeds by over 12 per cent, the average yield of the non-inspected cows, an average gain of 23 lbs. of butter per cow anies have given their members aggre-

CAVES KILLING SIX PERSONS

Many More Badly Hurt in Seyenth Avenue Accident

as secretary and also to extend a Disaster Caused by Explosion of Dynamite in New Subway Construction.

> New York, Sept. 22.-Six persons were killed and 200 seriously or slightly hurt when a section of Seventh avenue suddenly caved in today following an explosion of dy-

namite. The collapse of the street took place in a section under which the new subway is in progress of construction.

A trolley car carrying 78 men, wo men and children toppled into the big hole and a brewery truck also went down among the tangled timbers and other debris. The supports that had been install-

ed to hold up the surface of the

street while the subway work was in

progress snapped off when the dynamite exploded and created a canyon nearly two blocks long extending almost from 23rd to 25th street. All the ambulances in the city and the fire department were called and the victims of the accident, the dead, injured and uninjured, were brought

to the surface by means of ladders. WILSON SAVES A CACET HAZER

Washington, Sept. 21-Cadet Douglass T. Cameron, son of Lieut-Col. George H. Cameron of the United States army, was found guilty of hazing by a general court-martial and sentenced to dismissal from West Point and his sentence today commut ed by the President to suspension without pay or allowances until August, 1916.
